CONSTITUTIONALITY OF DRY AMENDMENT SUBJECT OF ATTACK

Court Proceedings Started
Today in Rhode Island
Federal Court.

By Associated Press Leased Wire
Providence, R. I., Jan. 8.—An injunction to restrain federal officials in Rhode Island from interfering under the national prohibition amendment with "the manufacture and sale of non-intoxicating malt beverages" was asked in three bills of complaint filed in the United States district court today.

The actions were brought by Michael J. Lynch, in behalf of brewing interests. United States Attorney Harvey A. Banker and the collector of internal revenue, were named as defendants.

The eighteenth amendment, the bill asserts, is "wholly null and void" and title 2 of the Volstead act, for the enforcement of constitutional prohibition is declared to be "unconstitutional and void and beyond the power of the federal government to enforce."

The bill attacks the Volstead Act particularly, saying that it arbitrarily and oppressively defines and classifies as intoxicants liquors which are not in fact intoxicating. The plaintiffs ask for a restraining order and preliminary injunction to be effective during the hearing and pending a final decision of the case and then for a perpetual injunction.

The eighteenth amendment is declared to be null and void in that two-thirds of the members of congress did not deem any such amendment necessary and did not by resolution or otherwise declare that they deemed the same necessary, as required by article five of the constitution; that the amendment to the constitution within the true intent of article five; that the power to amend the constitution did not extend to the exercise of ordinary legislative powers regulating the conduct of life by private individuals; and that the amendment is upon a subject not within any power granted to congress or prohibited to the states.

TO MAKE THINGS HUM IS THREAT OF SOCIALISTS

By Associated Press Leased Wire
New York, Jan. 8.—A committee of eight local Socialists today considered plans of action in the case of five members of their party who were not allowed to take their seats in the state assembly at Albany yesterday. This committee was empowered to take full charge of the incident after a lengthy conference last night at the Rand School of Social Science attended by the members of the city, county and state committees and the suspended assemblymen.

One member of the committee declared that one of the first acts would be "to obtain the co-operation of the labor unions." He would not amplify this assertion except to say that "things are going to hum as they never did before."

Issued Statement.
The Socialist assemblymen issued the following statement today:

"It is not at all improbable that the action of the assembly is part of a movement of organized capital, of which the republican and democratic parties are the political champions, to discourage the people with the methods afforded by representative government and to provoke them to resort to methods of violence. We shall do all in our power to expose this conspiracy and defeat its purpose.

"As in the past the result of such procedure can be only to arouse additional interest in the principles which we represent and stimulate the growth of the great movement to which we have the honor to belong. Its immediate political effect will be altogether favorable.

"We regard our exclusion from the assembly as organized violence on the very essence of democracy—the sacred right of the ballot. It is a denial of representative government. It is the shameful establishment of an ugly dictatorship—the dictatorship of naked plutocracy."

THREE CITIES IN FIGHT FOR DEMS. NATIONAL MEET

Chicago, Frisco and K.
C. in Race When Com-
mittee Met Today.

BULLETIN
By Associated Press Leased Wire
Washington, Jan. 8.—San Francisco was selected today by the democratic national committee, in session here, as the place for the party's 1920 national convention.

By Associated Press Leased Wire
Washington, Jan. 8.—Only San Francisco, Chicago and Kansas City were in the race for the next national democratic convention when the national committee met here today to choose the time and place for the 1920 meeting. On the roll call of states, Ohio and Indiana did not signify their intentions to compete for the convention city, although Cleveland, Cincinnati and Indianapolis previously had been in the race.

Clark Howell of Georgia was appointed chairman of the resolutions committee with A. R. Tilow, Washington, John Gary Evans, South Carolina, Senator Saulsbury, Delaware and Patrick H. Quinn, Rhode Island, as committee members.

There were a number of absentees, when the gathering was called together by Chairman Homer S. Cummings.

A committee was appointed to hear a request regarding the holding of primaries in the District of Columbia. It was composed of John W. Coughlin, Massachusetts; E. F. Goltra, Missouri, and R. H. Elder, Idaho.

A request from the National Association of Federal Employees for a statement of the attitude of the party on the government workers' demands for increased wages was referred to the committee on resolutions.

Present Chicago's Claim.
Chicago was the first to present its claims for the national convention, addresses of invitation being made by former Mayor Carter Harrison, former senator James Hamilton Lewis and Roger Sullivan.

Mr. Harrison said all of the factions in Chicago were united in asking for the convention.

The peace treaty came to the front when amid applause Senator Lewis declared the paramount issue in the campaign would be foreign affairs and that the republicans by "malicious falsehoods" were seeking to "array the foreign-born citizens against America."

He pleaded that the convention go to Chicago so that the large foreign-born population there could see first hand that the party really was not working against them.

Presenting the financial end of the argument Mr. Sullivan said Chicago was ready to make a guarantee of \$75,000 for the convention. The committee room roared with applause when he concluded by saying that "for those of us who have disagreed about a recent public question Chicago can take care of both dries and wets."

Isador B. Dockweiler of California, nominating San Francisco, outbid Chicago's offer with a proffer of a guaranteed sum of \$125,000 for expenses, the free use of the municipal auditorium seating from 15,000 to 18,000 and of additional funds for entertainment purposes.

Resolutions endorsing the treaty of Versailles and denouncing as unpatriotic the attitude of Senators who would defeat it directly or by nullifying reservations were unanimously adopted today by the democratic national committee in session here.

The "arrogant" republican leadership of the senate was denounced as having earned the "contempt of the world" by throttling the treaty for seven years.

DEATH LIST IN QUAKES IS 2,000

By Associated Press Leased Wire
Mexico City, Jan. 7.—(Delayed.)—The estimated number of casualties attending the earthquake Saturday evening in the western part of the state of Vera Cruz still stands at 2,000 or more.

Disasters from the stricken area do not even estimate the damage done nor do they give accurate lists of deaths.

Yet they do not deny reports of the disappearance of one village, the total destruction of several others and the inundation of several towns by waters pouring down mountain streams.

Dispatches from special correspondents in the earthquake zone tell of the pitiable plight of survivors, many of whom lost their homes and are living in the open in hours of renewed shocks.

A relief fund has been started in this city, foreign colonies making liberal contributions. Military expeditions with ambulances, doctors and supplies contributed by individuals, municipalities and the government have been sent into the affected districts.

EVENSON RETURNED AS C. & N. W. AGENT

E. W. Flala this morning was checked out of office as agent for the Chicago & Northwestern in this city, his position being filled by Carl S. Evenson, who formerly acted as agent here. Auditors completed checking up the records of the office this morning and returned to Chicago, Mr. Evenson resuming his duties as agent today.

Mr. Flala came to Dixon July 1, 1917, taking the agency for the company here, when Mr. Evenson enlisted in the government service as a member of the engineering corps. During his many months of service, Mr. Flala has made a wide circle of warm friends who wish him every success in his new location. He stated at noon that he would report at the general offices in Chicago this week and had no idea where he would be sent. The many friends of the former agent who again today took up his duties will welcome him back to Dixon.

LEE CO. FARMERS INTEREST IN BIG PEORIA MEETING

State Agricultural Assn.
to Hold Annual Meet
There Jan. 13-14.

The Illinois Agricultural Association, the business organization of 50,000 farmers, will hold its fifth annual meeting in Peoria at the Coliseum, Jan. 13 and 14. The I. A. A. is composed of the members of the 76 County Farm Bureaus in the state. The big main work of these Farm Bureaus in the past eight years has been efficiency on the farm and increased production. This is being worked out in many different ways ranging from soil fertility problems to breeding high yielding seed corn.

Now Illinois farmers are studying all business and economic problems as well as their production problems. They say it is just as important for the farmer to make marketing and distribution efficient as it is to produce. They say that farmers are a large class of people who have demonstrated that they are conservative, patriotic, thinking citizens and that they should be organized so agriculture can speak for what it needs and wants, and be on speaking terms with others.

The meeting will last the full two days. On the evening of Jan. 13, J. R. Howard, President of the American Farm Bureau Federation, will tell about the work of National organization. Mr. Howard is also President of the Iowa State Association which has just finished up a membership campaign and has 102,000 members. Dean C. Davenport will speak the second evening. All other sessions will be on business of the organization, report of Secretary and all committees.

HERD OF DEER NEAR AURORA; ARE PROTECTED

By Associated Press Leased Wire
Aurora, Ill., Jan. 8.—An astonished farmer came upon a herd of deer early this morning at Bald Mound, nine miles northwest of Aurora. Inquiry by the deputy game warden for northern Illinois, Joseph Schaefer, developed that the deer were not from any of the privately owned lodges on Kane county country places and Deputy Schaefer announced that any one hunting the deer would be prosecuted. He based this order on a forgotten law which was enacted in the days when there were deer in Illinois and decrees that this is a closed season for hunting the black tails.

Mayor Mark D. Smith went to Rock Island this afternoon for a short visit with his son, who resides in that city. J. H. Wiener, of Reynolds township, is in the city today calling on friends.

SITUATION IN RUSSIA ABOUT AS SERIOUS AS IT CAN POSSIBLY BE

Reds' Successes Have Im-
perilled Whole Anti-
Bolshevik Forces.

By Associated Press Leased Wire
London, Jan. 8.—The situation in Russia is about as bad as could be, from an anti-Bolshevik point of view, according to British war office reports, and there are few signs indicating any improvement. There are two especially menacing developments. In the first place General Denikine's army has been cut in two through the Bolshevik push to the Sea of Azov at Taganrog, and its flanks have been thrust back, leaving a large gap. In addition there comes a claim from the Bolsheviks of the capture further east of the town of Krasnovodsk, on the Caspian Sea.

"Reds" Rule in Persia?
The capture of this important port of Krasnovodsk, it is pointed out, creates the grave possibility of the establishment of Bolshevik rule in Persia. The taking of Krasnovodsk permits the Reds not only to control a large part of the important Krasnovodsk-Merv railroad, but gives them free access to the Caspian. There seems little then to prevent them from gaining control of the Caspian. Once in possession of this sea there remains only a small British force and the poorly organized Persian forces between the Reds and the occupation of Teheran and northern Persia.

Baku, with its important oil supplies on the western coast of the Caspian seems likely also to fall into Bolshevik hands and its occupation would provide a base for further operations against the rear of Denikine's hard pressed right wing.

If the Bolshevik reports are true General Denikine has suffered a considerable disaster for not only have the Reds severed all land communication between his left and right wings but they have captured large quantities of war material, including much that was sent to him by the allies.

"ARK" BUFORD IS NEAR KIEL CANAL, BOUND FOR RIGA?

Location of Ship Leads
to Reasonable Guess
of Destination.

By Associated Press Leased Wire
Washington, Jan. 8.—The Soviet Ark Buford, with its cargo of 249 radical aliens, is about to enter the Kiel canal, according to official dispatches received here today. While still refusing to disclose the destination of the ship officials said "a very good guess might be ventured since passage through the canal has become known."

It was believed that the Buford would go to Riga, a port in Livonia, to discharge its radicals for transportation across the country into Soviet Russia.

By Associated Press Leased Wire
New York, Jan. 8.—The army transport Buford now known as "Soviet Ark No. 1" which left here Dec. 21, carrying Emma Goldman, Alexander Berkman and other deported "radicals," is believed through wireless advices received today to be approaching the Kiel canal. The last wireless message from the ship gave her position on Jan. 6 as near the Atlantic end of the English channel. It is known that prior to sailing the Buford's captain secured special information as to the approaches to the famous German waterway leading from the North Sea into the Baltic.

EDGAR OWENS, MOLINE COMMUNIST, ARRESTED TODAY; IS KNOWN HERE

Is Charged with Conspiracy
to Overthrow Govt.;
Get Evidence?

By Associated Press Leased Wire
Moline, Ill., Jan. 8.—Edgar Owens, organizer of Rock Island County Socialists and Illinois secretary of the Communist Labor party, was arrested at his home here today by Maclay Hoynes staff, and was taken to Chicago to be lodged in the Cook county jail. The warrant, issued by Judge Pam at Chicago, charges conspiracy to overthrow the government. A number of important papers, some of them sent here from Chicago to prevent their falling into the hands of federal agents were secured, it is said.

Note.—The above Associated Press dispatch will be of special interest to the people of Dixon inasmuch as Owens is well known here through his arrest when he attempted to speak on the streets of the city in defiance of orders from Mayor Mark D. Smith that he should not be permitted to deliver his address.

At that time he was found guilty by a jury in Justice Martin Gannon's court and was fined, but through his attorney, H. A. Brooks, the case was appealed to the Circuit court, where it is now pending.

OFFICIALS "KNOW NOTHING."

By Associated Press Leased Wire
Chicago, Ill., Jan. 8.—Federal and state officials here profess ignorance of any campaign against radicals in Illinois cities. When informed that arrests had been made at Rockford and Moline, Harry R. Landis, immigration inspector in charge of the hearings of alleged Reds in this district declared he knew nothing of the matter.

Landis has completed preliminary hearings in the cases of 224 men caught in the federal raids last week and is prepared to open final deportation proceedings.

The special grand jury called by State's Attorney Hoynes devoted today to consideration of the case of William Gross Lloyd, of Evanston, millionaire agent at arms of the communist party. Detectives of the state attorneys office are searching for Robert H. Lowe, Lloyd's secretary.

FORMER ALDERMAN TAKEN.

By Associated Press Leased Wire
Rockford, Ill., Jan. 8.—Oscar Wahlstrom, former Socialist member of the city council, was arrested today for alleged activities in the communist party. He has not yet given bail. William Steinfert, who served in the navy two years, was arrested on a similar charge and is under retention. According to the authorities Steinfert was to have presided at a meeting to create opposition to the American Legion, which was prevented by the police.

Mrs. Alice Beal Parsons, Rockford College graduate and prominent social worker, who was arrested last night, declared today she had never advocated violence in any form. She was released under bail of \$5,000 furnished by her husband. Mrs. Parsons is a daughter of the late Mark Beal, who made a fortune in electrical business.

Dr. O. Alfred Olson also arrested last night, gave bail. He was formerly a Socialist member of Rockford park commission.

EX-TEACHER OF PALMYRA SCHOOL CALLED TO REST

O. H. Martin of this city received word today of the death of his father, Dr. O. H. Martin, at his home in De Pere, Wis., this morning, and left immediately for that place. Mr. Martin will bring his father's body here for burial in the Prairieville cemetery beside the veteran physician's wife.

For many years Dr. Martin lived in Palmyra, coming there with his parents as a boy, and as a young man he taught school in Prairieville until he moved to Wisconsin in 1866.

Dr. Martin was born in New Hampshire 84 years ago last December 23. His wife died in 1886. Besides O. H. Martin of Dixon, Dr. Martin is survived by another son and two daughters, who live in Tacoma, Wash. About 12 years ago, after many years of active service in the practice of medicine at Kewanee, Wis., Dr. Martin retired.

The funeral arrangements have not been completed, but it is probable that the services will be held in the Staples, Moyer & Schumm funeral chapel, with burial in Prairieville cemetery.

The news of the death of Dr. Martin will bring sorrow to many of the older residents of Palmyra, who knew and loved the boy and later the young school teacher of early days.

ATLANTIC FLEET LEFT TODAY FOR EXERCISES AND LONG MANEUVERS

Big Organization of Fighting Ships Under Admiral Henry Wilson.

By Associated Press Leased Wire
Old Point Comfort, Va., Jan. 8.—The main body of the Atlantic fleet, including seven dreadnaughts, 35 destroyers and a number of submarines and auxiliary vessels, under command of Admiral Henry B. Wilson, sailed today from Hampton Roads for Guantanamo, Cuba for the annual winter manoeuvres and exercises.

The fleet as constituted is relatively smaller than previous years due to the fact that lack of men kept the number of pre-dreadnaughts, battleships, several cruisers and a large number of destroyers in port. Of the 108 destroyers attached to the Atlantic fleet, only 25 have large enough crews to warrant sending them to sea.

Admiral Wilson Commands
Admiral Wilson's flag flies from the main mast of the dreadnaught Pennsylvania, wartime flagship of the United States fleet. The other dreadnaughts in the fleet are the Oklahoma, Nevada, Arizona, Utah, Florida and Delaware. The North Dakota, recently at Constantinople, is en route to Cuba to join the fleet.

Despite the handicaps of depleted and untrained personnel, the fleet this year faces the most extensive and comprehensive schedule of winter manoeuvres in history. Particular attention will be given to working out lessons, and problems and tactical manoeuvres under a careful test to wartime mechanical innovations. Co-operation between naval aviation forces and the fleet, experiments in submarine attack problems and tactical manoeuvres under high speed in addition to the usual strenuous program of target practice, are expected to keep officers and men busy night and day during the stay at Guantanamo. Aviation ships accompanying the fleet were to give the first opportunity to experiment with the practicability of large tactical units carrying their own flying forces.

Reassemble at Colon
After spending a month at Guantanamo the crews will be given a brief respite from the strenuous round of drills when the seventh division of dreadnaughts goes to Barbados and the fifth to Trinidad, performing tactical manoeuvres en route. Various smaller craft will accompany the two divisions. On February 25 the units will be joined at Colon and they will remain until March 4, giving all hands an opportunity for shore leave at the Canal. Leaving Colon March 4, the fleet will return to Cuba and continue exercises and manoeuvres, including main battery target practice, until April 26 when the homeward-bound pennants will be broken out and the return voyage started. After arriving in home waters the vessels will scatter to various navy yards of the Atlantic coast for the annual overhaul period.

The greatest problem the fleet will face during the winter drills, naval officers said today, was the preponderance of untrained men in the crews. This is particularly true of the engineers and artificers branches, they said, due to the rapid demobilization of the navy, the highly trained and expert gun pointers and turret trainers developed during the war are now for the most part civilians. Many months of hard work will be necessary to train them to take their places. Consequently it is not expected that the Atlantic fleet which has led the world in target practice will this year achieve so splendid results. The average age of the crews of the ships going south today was 19 years. No efforts will be made this winter to join the Atlantic and Pacific fleets for combined manoeuvres.

INTRODUCING SASKATCHEWAN

Resping of Indian Head, Sask.

Hereford Cattle, Crown Lake, Sask.

Oat Field

If a questionnaire regarding Saskatchewan should be issued to people in the United States, it would, no doubt, be interesting and illuminating to read the answers. What percentage of replies would declare it to be a wild country? How many conceptions would be colored by impressions gained from viewing "The Girl from the Saskatchewan" who in blue velvet and white furs, appeared in a snow scene in "The Pink Lady" of a few years ago? Rev.

would give the province of the "Rapid River" credit for the products it ships into the United States year by year.

With a population of about three persons to each of its 251,000 square miles, Saskatchewan is able to raise sufficient products on its rich prairie acres to export millions of dollars worth to the United States.

Naturally, live stock and grains make up the bulk of the aggregate. Live cattle and meats sent us are worth in the neighborhood of three millions of dollars annually and the

value of the grains is not far from the two million mark. In addition to these commodities, we receive enormous quantities of butter, eggs, flour, lumber, and what is most unusual for an inland territory, fish.

A glance at the map reveals a network of rivers and lakes, all of which are more or less well stocked with fish. A new fishing ground is being developed at Buffalo Lake in the northern part of the province, near the Alberta border. It is estimated that to date this lake has yielded in the neighborhood of \$100,000 worth of fish for the Edmonton market.

This releases the fish of the southern lakes for export to the United States. Another surprising item among Saskatchewan's exports is trees. Although the number sent to us is small, it is significant. A 150 acre forest farm near Southernland ships millions of trees to farmers in the province, and, after the home farmers are supplied, more trees become available for export.

A map recently sent out by the secretary of state showing the principal marked highways of the state, shows the Meridian Highway quite prominently. Every business man in town should cooperate with the promulgation of this road and try to see that the road is kept up and well marked through this section of the country and the markings through town should by all means be repainted in the spring. This could be done by the village if not looked after in any other way. Every farmer living near this road also should feel a keen interest in it as it will add to the value of his farm if well kept up.

PLAY WAS SUCCESS.
"An Arizona Cowboy," the play put on at the Long Community Hall, Harmon, on the evening of January 2nd, drew an unexpectedly large house in spite of the extreme cold weather. Interest was aroused at the very beginning of the first act and the entire audience was kept in continual suspense until the curtain fell at the close of the final act. Several of the characters, including Yow Koo—Clarence Buzzard, Mrs. Putnam Buggs—Mrs. Claud Switzer, Mrs. Farley—Gant—Claude Switzer, Hezekiah—Buggs—Howard Switzer, Duke Blackshear, Fawn Afraid, and Young Un, gave perfect interpretations of their parts. All the characterizations were excellent. Those who missed the play on account of the severe weather are now voicing their regret. The orchestra from Dixon, which played for the dance which followed the play, so delighted the dancers that they were engaged for an extra hour.

HONORED BIRTHDAY.
Mr. and Mrs. C. E. Poisel, of Nelson, were given a surprise party Saturday evening by about seventy friends, the pleasant affair honoring Mr. Poisel's birthday. At midnight a supper of unusual excellence was greatly enjoyed. Mr. Poisel was the recipient of many gifts, including a birthday cake.

This had been especially prepared by Mrs. March who might be prevailed upon to give her recipe to others seeking enjoyment. About twenty-five members and friends participated in the enjoyable evening.

Those who have labored and prayed so long for its coming can scarcely comprehend it. A great future is in store for the coming generations with such a curse removed from their midst. It is a time for great rejoicing and this great event will be observed by all the churches and every temperance organization in the city. The best talent procurable will be upon the program. This victory celebration will be held in the Methodist church Thursday, January 15th, at 7:30 o'clock. The full program will be announced later. The public is invited.

THREE CITIES IN FIGHT FOR DEMS. NATIONAL MEET

(Continued from page one.) months, and the senate was called upon to "quit playing politics with the question of ratification."

The resolutions referred to enactment of the law giving "the people the right to elect their United States senators by popular vote," and said the party had "enfranchised the women and for the first time gave labor the fair showing to which it was entitled."

"Our" Part in War.

Referring to the avowed objects of the country's participation in the war the resolutions continued:

"A treaty to this end was negotiated and for seven months it has been throttled by the misused republican leadership of the senate that is so arrogant that it even refuses to let the senators of its own party, who desire to have the treaty ratified with certain reservations that seem reasonable to them, to vote accordingly, and thus to make at least a start toward world-wide peace."

As a result, the resolutions said, conditions are unsettled, a delicate proclamation of the end of the war is delayed. It declares that had the treaty been ratified "with reasonable promptness" the world would now be engaged in the fruitful work of reconstruction.

Maud Powell, Famous Violinist, is Dead

By Associated Press, Leased Wire.
Uniontown, Pa., Jan. 8.—Maud Powell, well known throughout the country as a violinist, died in a hotel here today. She suffered a nervous breakdown yesterday, and became so ill that her concert last night was cancelled.

Maud Powell, who died today at Union town, collapsed in the middle of her concert here last Thanksgiving night. She was taken to a hospital where she hovered between life and death for 24 hours, but subsequently recovered and continued her tour, after illness at that time was diagnosed as acute gastritis.

WAS BORN IN PERU.

By Associated Press, Leased Wire.
New York, July 8.—News of the death of Maud Powell, who was universally regarded by critics as the world's most talented woman violinist, was received with regret today in musical circles.

Maud Powell was in her 52nd year and had given thousands of concerts in the United States and Europe since she first attracted attention as a child prodigy in the middle west. She was born in Peru, Ill., and at the age of 11 went abroad to study in Leipzig, Paris and Berlin.

Before her return to the United States she gave several concerts before royalty in England and Russia by command. Her New York debut was made with the New York Philharmonic Society when she was sixteen years old. She played with all the representative musical societies of the United States and did much to introduce the work of American composers. She organized the Maud Powell String Quartet which also toured extensively. She was married in 1904 to H. Godfrey Turner, of London.

GUESTS AT DINNER.

Mrs. Jesse Gardner entertained at dinner Wednesday Mrs. M. L. Pettit and Mrs. Frank Manahan.

THE WOMAN WHO LOVED--AND EARNED

By JANE PRELPS

A Modern Story of Home and Business

A "FRANK" TALK THAT WASN'T FRANK.

CHAPTER 28.

To a woman who has loved strongly, loving is almost a necessity. And from the very first I had loved Robert strongly, but with a certain reserve that I could not overcome. Had I married at 20 instead of 25, I would probably have been more outspoken in my feeling for him, as well as in regard to other things—our manner of living, etc.

It was hard for me to broach the subject of my work. Beginning with Mary Ryan, everyone had made me feel I was in the wrong, yet I myself believed I was doing everything for the best—not entirely on my own account either, but because of Robert.

"Robert, do you feel that I should give up my position?" I asked, "and that we should try to live on what you can earn?"

I was looking straight at him as I spoke and there came into his eyes a peculiar gleam—just for a moment. But before I had finished it was gone, and his face wore the same quiet expression to which I was fast becoming accustomed, although it was so different from the one he wore when we were married.

Then he looked happy, carefree, and was always laughing and joking. Now he did not do so, save occasionally—he surely had changed, and it made me anxious.

"What do you think about it?" His question annoyed me. He, everyone, knew what I thought.

"That's a Yankee trick, answering by asking a question yourself. I want to know what you think."

"I want you to be happy, Gerry. You know how little I earn. Unless you could be happy living as we would have to live I would rather you went on at the shop, and so having what you want."

"There! I knew that was how you felt about it. But your aunt was so sure you would be tempted to do wrong because you had no home that I had almost determined to give up my position so that I could wash dishes and cook for you in some cheap place."

He had flushed when I spoke of temptation, but I had not given it a thought beyond feeling he was annoyed that his aunt thought him so little worthy of trust. I loved him so genuinely, and my time and mind were so engaged with my work when not with him, that I had no time for doubt, save when just a shadow of one would creep in when he had been with Marion Hovey.

"Aunt seems to have very little confidence in me," he said after a moment.

"Oh, I don't think she meant just you when she talked. She seems to think all men rather weak, and that it is a wife's duty to see they are not led into temptation. She didn't say a word about a wife having any temptations."

"I suppose she knew you were too busy earning our living."

The bitterness in Robert's voice penetrated even my stupidity as regarded money matters.

"Why Robert Meredith! Aren't you ashamed to talk like that? You know,

that just as soon as you get a larger salary I shall be glad to play lady, and that it is only fair that until you do we use what I earn for our living. Have I ever said one word about earning more than you do?"

"No," the flush on his face deepened, "but you do. You're not saying anything doesn't alter the fact. You are paying aunt's expenses, too. And—"

"She doesn't know that unless you have told her."

"No, and I am too much of a coward to tell her. It is too humiliating. Yet I allow myself to be humiliated not only in that, but in many other ways. It's too bad you married me, Gerry. I thought I was going to make good or I wouldn't have asked you."

"Well, Robert, I don't think it too bad I married you. You're the only man I ever wanted to marry. If I am satisfied, you shouldn't kick. That is unless you—regret marrying me."

"I wanted to make you happy—but—"

"You do when you are yourself and don't fuss about foolish things. Your firm are sure to advance you soon. If not, you can go with someone else. I was positive it was the fact that others had been advanced and their salaries raised that bothered Robert; not that I worked, or that we lived in a boarding house."

THE POWER OF SUGGESTION

To what degree the movies are able
to incite to crime is, perhaps, impos-
sible to determine accurately, but their
power of suggestion is singularly dem-
onstrated by the case of John Stevesson
of Hutchinson, Kan. Mr. Stevesson,
according to a news dispatch, is a farm
hand at a Hutchinson dairy, and he
came to this country not long ago as
an immigrant. He had a holiday re-
cently and promised himself a day of
pure enjoyment in the city. His pro-
gram included a visit to the movies.
Unfortunately for his day's pleasure,
one of the films showed scenes at sea
with the navy. There was a stiff breeze
blowing and the ships plunged and
rocked and the waves heaved tumultu-
ously. It reminded Mr. Stevesson all
too much of his own stormy voyage
across the Atlantic and he became so
violently seasick that he had to be
taken to the hospital. There his case
puzzled the doctors for some time.

Another instance of the power of
suggestion occurred the other day at
Mitchell, S. D., although most people
considering it from a psychological
viewpoint would not go further than to
call it pure "nervousness." A prisoner in the
Mitchell jail made a saw out of a case
knife and then had the happy thought
of using it in broad daylight on the bars
of a window in full view of the passing
populace. Several citizens saw him at
work but obligingly thought he was a
workman making repairs. With this
tacit co-operation of the suggestible
public he cut his way through the bars
and escaped.

Powerful as is the influence of sug-
gestion there are some natives, howev-
er, so little suggestible that it fails to
move them, and direct injunction must
be employed to obtain results. An in-
teresting case is reported from St. Paul,
Minn. It seems that a very eligible,
though somewhat obtuse young man
had been calling on a young woman for
a long time without, apparently, per-
ceiving that the kindness of her re-
ception warranted him in coming to the
point. She had exhausted all the subtle
feminine methods of encouragement
without effect. Proceeding to more ob-
vious means of suggestion she so ar-
ranged that the gas in the quarter met-
er played out at a carefully prepared
psychological moment. The young man
rose gallantly to the occasion—and pro-
duced a quarter. This happened not
once but every time she tried the ex-
periment, and finally she despaired of
indirect methods. Being a girl of con-
siderable ingenuity, as, indeed, she had
already demonstrated, she devised a
novel way of stimulating the young
man by direct injunction. One evening
as he was chatting pleasantly along
about the traff he was greatly startled
when the clock struck 10 and instead
of the usual gentle-voiced cuckoo the
well-trained family parrot protruded
his head from the clock and hoarsely
adjured him to "Pop the question!" The
galvanized young man "popped." An-
other leap year is upon us, we retell the
story for what it may be worth.

A Philippine commission is coming to
ask independence. Hang it, can't they
realize that pretty phrases are merely
pretty phrases?

We would think more of Ford if he
would cut out this bonus to employees
for awhile and put another spring un-
der the back seat.

When Italy says that she wishes to
stick to her allies, she means that she
wishes to stick Jugo-Slavia without be-
ing criticized.

Since this is leap year, perhaps it
wouldn't be too immodest for the coun-
try to tell the Senate what it wants
done.

Koreans who clamor for independ-
ence are fooling with a power that dis-
lights to argue with gunpowder.

Drink to me only with thine eyes;
wood alcohol will make you blind.

Senator Poindexter is frank about it
anyway. He freely admits that he
would like to be president.

OBITUARY.

FLETCHER SEAVEY.

Fletcher Seavey was born in the vil-
lage of Sandwich, Carroll county, New
Hampshire on the second day of Sep-
tember, 1829, and died January 6th,
1920. He was a descendant in the
ninth generation of William Seavey,
who in the year 1650 came from Eng-
land and settled in the colony of Mass-
achusetts. In 1854, he came with his
parents to Illinois and settled in Pal-
myra township, in what has been
known as the Sugar Grove neighbor-
hood.

On November 9th, 1862, he was united
in marriage to Evaline C. Eastwood,
a native of Palmyra, who preceded him
in death in 1895. To this union were
born eight children, five of whom are
now living; Harry C. of Eagle, Idaho,
Clyde L. of Sacramento, Cal., Eda Hon-
ey, of Chicago, Allen E. and Esma
Keithley, of Dixon. Roscoe C. died in
1874, Freda A. in 1894 and Ruth M. in
1919.

Mr. Seavey was not a member of any
church but for many years attended
the Sugar Grove church in Palmyra.
He was a member of Company D, 40th
Illinois infantry during its service in
the Civil war. He served two years as
supervisor of Palmyra and for 17
years was secretary of the Farmers'
Mutual Fire Insurance Company of
Palmyra.

In politics, Mr. Seavey was a republi-
can and felt proud of the fact that the
first vote he ever placed in a ballot box
read, "For President of the United
States, Abraham Lincoln, of Illinois."
Of late years, however, his sympathy
was with the progressive element of
the party. Mr. Seavey was always an
earnest advocate of women's suffrage,
also of a national law absolutely pro-
hibiting the manufacture or importation
of alcoholic liquor in or to the
United States. For years Mr. Seavey
had hoped that all civilized countries
would enter into an agreement to set-
tle all international disputes by arbitra-
tion instead of by war. His endeavor
was to live a quiet, peaceful life and
observe the Golden Rule in his deal-
ings with his fellow men.

CARPENTIER IS
AGREEABLE TO
MOST ANYTHING

By Associated Press Leased Wire
Paris, Jan. 7.—Georges Carpentier is
willing to give concessions in the mat-
ter of weight in order to meet Jack
Dempsey, Descamps, Carpentier's man-
ager, stated tonight to the Associated
Press. Descamps said he was willing to
split the \$400,000 purse offered by Jas.
Coffroth on a basis of sixty per cent
for the winner and forty per cent for
the loser.

"Carpentier is willing to journey to a
strange land, face an exotic climate,
give away from 25 to 30 pounds in
weight and accept a split of 60-40 of
Mr. Coffroth's offer," said Descamps.

"We had intended to demand a 50-50
split but are willing to accept a 60-40
division in order to show this is not

E. interurban car No. 104 at the corner
of Third street and Second avenue in
that city at 7 o'clock last night, and it

to Protect N. Y. Girls

New York, Jan. 8.—Fifteen thousand
young women have been "sworn in" by
the New York Probation and Protec-

for youth" to bring about such health-
ful recreation as shall prevent the ex-
ploitation of leisure time "by com-
mercial and undesirable interests."

"Evidence" in Booze
Cares Thieves' Loot

By Associated Press Leased Wire

ed the federal building and stole fifty
quarts of whiskey from a vault in the
offices of the Department of Justice, it
became known today. The whiskey had

The robbery, which occurred a week

JUSTICES FEAR
THEIR OFFICES
ARE NEAR FINISH

Alarmed by a report that a number
of delegates to the state constitutional
convention favor abolishing the office
of justice of the peace and substituting
therefor a court which would have
somewhat wider jurisdiction, constab-
les, justices and police magistrates of
Kane county met Wednesday at the
Geneva court house to decide on action
to combat any fundamental law making
which would do away with the justice
court or require the holder of the office
to be a lawyer. It was said that "the
justice court is a purely common sense
tribunal," that is a layman can pre-
side as well as a lawyer because the
court is not one of record and decisions
are based wholly upon evidence and
not upon the form it takes in being
presented.

Would Reduce Number.

Opponents of the justice court are
said to favor the establishment of a
court of largely the same jurisdiction
while cutting down the number of
courts. Some would also bar from
holding the office a person who had
not been admitted to the bar.

HUMANIZING OF GOVT. AND INDUSTRY NEEDED MOST, SAYS COOLIDGE

Governor of Massachusetts
Delivered His Inaugural Message.

By Associated Press Leased Wire
Boston, Jan. 8.—The need of humanizing government and industry and of maintaining obedience to the law was stressed by Governor Coolidge in his inaugural address today. He urged more effort in production and economy on the part of both state and individual. "The duty that government now owes to the people," he said, "is to reduce their burdens by paying off the obligations that came from the war rather than imposing additional burdens for the support of new projects. "Healthful housing, wholesome food, sanitary working conditions, reasonable hours, a fair wage for a fair day's work, opportunity full and free, justice speedy and impartial, and at a cost within the reach of all, are among the objects not only to be sought but made absolutely certain and secure. Government is not, must not be, a cold, impersonal machine, but a more humane agency, appealing to the reason, delivering the weak from any impositions of the strong."

Must Change Standards.
"We need to change our standards, not of property but of thought. If we put all the emphasis on our material property, that property will perish and with it will perish our civilization. Employer and employee must find their satisfaction not in a money return but in a service rendered. Industry must be humanized, not destroyed."

"There are strident voices urging resistance to law in the name of freedom. They are not seeking freedom even for themselves—they have it; they are seeking to enslave others. Their works are evil. They know it. They must be resisted. The evil they represent must be overcome by the good others represent. These sides which are wrong for the most part imported, must be supplanted by ideas which are right. This can be done. Prosecution of the criminal and education of the ignorant are the remedies."

"It is fundamental that freedom is not to be secured by disobedience to law. Government must govern. To obey is life. To disobey is death."

D'Annunzio's Former Aid on Way to Paris

Trieste, Jan. 6.—(Delayed)—Major Giuriati, who recently resigned as chief of Gabriele d'Annunzio's cabinet at Fiume, left here tonight for Paris on a special mission for the insurgent leader in the Adriatic. Major Giuriati told The Associated Press he was empowered to deal with "certain phases" of the Fiume situation. He stated there was no disagreement between himself and d'Annunzio on Italy's aspirations for the annexation of Fiume.

Asserting the determination of the d'Annunzio adherents not to yield until their cause had succeeded, Major Giuriati said a train load of food arrived at Fiume today.

"We have enough food to keep us going," he declared, "but in any event we will be faithful to the end in our determination to bring about annexation."

RHEUMATISM LEAVES YOU FOREVER

Deep Seated Uric Acid Deposits Are Dissolved and the Rheumatic Poison Starts to Leave the System Within Twenty-four Hours.

Every druggist in this county is authorized to say to every rheumatic sufferer in this vicinity that if two bottles of Allenru, the sure conqueror of rheumatism, does not stop all agony, reduce swollen joints and do away with even the slightest twinge of rheumatic pain, he will gladly return your money without comment.

Allenru has been tried and tested for years, and really marvelous results have been accomplished in the most severe cases where the suffering and agony was intense and pitiable and where the patient was helpless.

Allenru relieves at once. Immediately after you start to take it the good work begins. It searches out the uric acid deposits, dissolves the secretions and drives rheumatic poison out of the body through the kidneys and bowels.

It's marvelous how quickly it acts. Blessed relief often comes in two days, and even in cases where the suffering is most painful all traces disappear in a few days.

Mr. James H. Allen, the discoverer of Allenru, who for many years suffered the torments of acute rheumatism, desires all sufferers to know that he does not want a cent of anyone's money unless Allenru decisively conquers their worst of all diseases, and he has instructed your druggist to guarantee it in every instance.

\$500,000,000 Needed for Church Movement

By Associated Press Leased Wire

"We are here," he declared, "to view the whole task which confronts the North American Protestant church and to determine the character and the magnitude of the proposed united undertaking. I think now we all feel that we are committed to the doing of some things together."

Leading delegates said a budget of more than \$500,000,000 would be necessary to carry out the world evangelization plans of the conference.

American Vessels to Repatriate Troops of Balkans Now in Siberia

By Associated Press Leased Wire
Washington, D. C., Jan. 8.—American ships furnished by the shipping board will be used to repatriate Czechoslovak, Polish, Jugo-Slav and Rumanian troops now in Siberia, it was announced today at the state department. The first of the vessels, the President Grant and the America, soon will leave New York for Vladivostok, where they will be due about February 10th.

These vessels will move about 10,000 of the troops and it is expected that the movement then will continue at the rate of 10,000 monthly until it is completed. The cost of America's participation in the repatriation will be taken care of out of loans made by the United States to the foreign governments whose soldiers are involved.

Repatriation of these troops will be under the direction of Brig. Gen. Hines, chief of the army transport service, and will be one of the last big military operations of the war. Officials said it would discharge an obligation to these troops on the part of the United States and the allies for the part they played in the struggle against Germany. The Czechoslovaks originally were part of the Austrian army, but being unfriendly to the German idea of world domination, deserted in a mass to the Russian armies early in the war. In Russia they were re-formed into special Czechoslovak units and more an important part of the fighting on the eastern front.

They then began a withdrawal eastward through Russia and Siberia, with the purpose of reaching Vladivostok but met with great difficulty in effecting their withdrawal because of the disorganization of the country and frequent interference by the Bolsheviks. It was to help extricate these forces from their precarious position that American and other allied troops were dispatched to Siberia last summer.

URGES OPEN BIBLE IN ALL AMERICAN HOMES

Salvation of America is Result Sought for By Altar League.

Making a plea for the American home in order to save America, the Rev. William Mathew Holderby, general secretary of the Family Altar League of America, will be in Dixon from Chicago, his headquarters, for a series of addresses Sunday and Monday.

Dr. Holderby has entered the service of the Family Altar League, a direct after the war work. For nearly two years he was in active religious service in the army camps of Texas and New Mexico, during which time he preached to scores of thousands of men. At Houston, Texas, on a capital of \$1.50, he erected a tabernacle seating twenty-five hundred men, where nearly 1,500 men professed conversion. They nicknamed him the "fighting parson of the Prairie Division." The men in the camp were of the 23rd division, or the "Prairie Division" from Illinois.

Open Bible in Home
The Family Altar League is engaged in a nation wide program to institute the open Bible in the home. Plans are being laid to develop in Illinois, as one of the first states in the drive, a county and township campaign to secure pledges from every householder to have a short religious service daily, consisting of the Bible and prayer. It is hoped by this not only to awaken interest in religion and in the church, but also to re-establish one of the old foundation stones that have made the American home an institution of Gibraltar-like strength.

"As a minister of the gospel, I am interested in the survival of religion," said Dr. Holderby, "and I expect to keep on preaching to my dying day. But I am also an American citizen, and from the patriotic standpoint alone, I believe that religion in the home is fundamental."

"The man who is tied to his God and to his nation is a patriot and a safe citizen. The other day, in Chicago, two high school students were fired from their classes because they refused to salute the dead on Armistice day. They protested that they believed neither in God nor in their country. Atheism and treason are common partners. The reds who now make so much noise are conspicuous in their lack of service but tons. But the men who have been faithful to their home and to their churches—the filled the ranks of the army. Look at Sergeant York. He saw it his religious duty to go to war, and he came back, unshamed of his God, the mightiest hero of millions of fighters."

"When the home is destroyed the nation dies. The home life of America is in peril today. I plead for its re-establishment."

Famous Old Recipe for Cough Syrup

Essentially and cheaply made at home, but it beats them all for quick results.

Thousands of housewives have found that they can save two-thirds of the money usually spent for cough preparations, by using the well-known old recipe for making cough syrup at home. It is simple and cheap but it has no equal for prompt results. It takes right hold of a cough and gives immediate relief, usually stopping an ordinary cough in 24 hours or less.

Get 2 1/2 ounces of Pinex from any druggist, pour it into a pint bottle and add plain granulated sugar syrup to make a full pint. If you prefer, use clarified molasses, honey, or corn syrup, instead of sugar syrup. Either way, it tastes good, keeps perfectly, and lasts a family a long time.

It's truly astonishing how quickly it acts, penetrating through every air passage of the throat and lungs—loosens and raises the phlegm, soothes and heals the membranes, and gradually but surely the annoying throat tickle and dreaded cough disappear entirely. Nothing better for bronchitis, spasmodic croup, hoarseness or bronchial asthma.

Pinex is a special and highly concentrated compound of genuine Norway pine extract, known the world over for its healing effect on the membranes.

Avoid disappointment by asking your druggist for "2 1/2 ounces of Pinex" with full directions and don't accept anything else. Guaranteed to give absolute satisfaction or money promptly refunded. The Pinex Co., Ft. Wayne, Ind.

ishment. In a city like Dixon where nearly everyone has his home, you don't see it, but we do in the greater cities like Chicago and New York, where crime and anarchy are multiplying hourly. Your city is safe. But it has its duty to feed a stream of fresh blood into the great cities that they may be redeemed. Remember the home remember America and remember God. They form a triune that no enemy can destroy.

The WHOLE WHEAT'S the Thing

WHOLE WHEAT'S the food that makes rugged muscles, ruddy cheeks and ready wits!

It has proteins, vitamins and minerals. These are the elements the body needs. They should be served constantly—as every doctor knows.

They make overflowing vigor—bounding energy. Roxane WHOLE WHEAT Blend Pancake Flour has all these vital strength-building elements.

Roxanes are the most nourishing pancakes. They are the most digestible because the mineral salts and bran of the WHOLE WHEAT aid digestion.

Your family should have Roxane pancakes frequently.

Only WHOLE WHEAT Pancake Flour

Roxane is the only prepared pancake flour we know that has the WHOLE WHEAT

In most flours 75 per cent of the essential strengthening elements of the wheat is lost in the milling. Roxane retains all. No other pancake flour does. Roxane is the most nourishing made.

The secret Roxane blend makes the wonderful flavor of Roxane Pancakes. Corn and rice flours are blended with the foundation of WHOLE WHEAT. Thus a melting lightness and tenderness, a delicious delicacy, are given to the golden brown nut-like richness of the WHOLE WHEAT.

\$50,000 EXTRA for Better Flour

We could save \$50,000 in this one season by using a cheaper grade of wheat flour for Roxane.

The color of Roxane shows its quality. The WHOLE WHEAT blend pancake flour is darker because of its richness. You can tell it by its color—rich, creamy flour with tiny red flakes of health-giving bran intermingled.

Roxane is THE most expensive pancake flour to make—the finest you can get! But it sells for no more than others and actually for less than some.

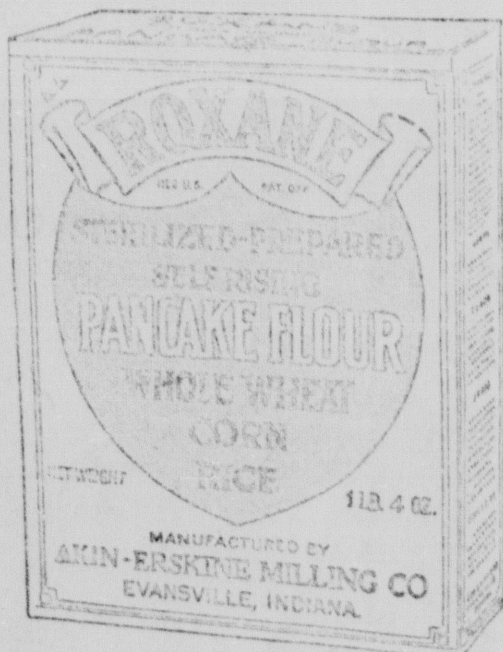

We even make the baking powder that goes into Roxane ourselves—to be absolutely certain of every ingredient. Roxane is never touched by hands—yours will be the first.

Cultivate Beautiful Hair

PROPER treatment will bring out the natural strength and luxuriance of the hair. This may easily be accomplished by taking care of the scalp, keeping it free from dandruff and stimulating the circulation in the hair tissues.

SCALPURA Does This For You

Hair depends upon the scalp to provide its rightful nutriment, just as a plant draws its sustenance from the ground. If the scalp is clean, healthy and well-nourished the hair will respond and a wholesome and luxuriant growth will be the result. SCALPURA produces a healthy vigorous scalp and naturally hair that has become faded and thin takes on new life and strength under its use.

A Good Head of Hair

Is a very attractive feature—especially in a man. The reason why so many men have thin, scraggly hair is because they fail to take proper care of it. Neglect means dandruff and dandruff results in sluggish circulation and an unhealthy condition of the scalp. This naturally causes the hair to fall out.

SCALPURA Rubbed on the Scalp

Two or three times a week opens the pores, stimulates the circulation in the hair tissues, removes dandruff and brings back the hair to its normal condition.

AMUSEMENTS

"TILLIE" HERE TUESDAY EVE.

Humor and pathos, with added quaintness, are said to hold the attention of the audience from curtain to curtain in the four-act comedy success, "Tillie," in which this season Messrs. Klav & Erlanger and George C. Tyler are presenting that charmingly dainty young actress, who has a remarkable gift for her art and who has acquired an admirable knowledge of the technique of the stage.

Miss Collinge will be remembered for her portrayal of the name part in "Pollyanna."

"Tillie" is an adaptation of Helen R. Martin's popular story, "Tillie," a Menonite Maid, done by Mrs. Martin and Frank Howe, Jr. It deals with the Pennsylvania Dutch with its scenes laid in the heart of the Mennonite country, all the characters, with a single exception being of these curious people. In reality, it is a play of types and each one is said to be limned and brought out with consummate acting and the part of its interpreter. The name part finds Miss Collinge at her best and it is her romance, her naivete and her unfolding that brings an added interest into the four acts of an exceedingly well-written play.

Messrs. Klav & Erlanger and George C. Tyler will present Patricia Collinge in "Tillie," supported by a cast of super-excellence during her coming engagement at the Dixon opera house on Tuesday evening, Jan. 13.

Corn Strengthens
with Car Shortage

By Associated Press Leased Wire
Chicago, Jan. 8.—Fresh strength developed in the corn market today, influenced by demand from the seaboard and by scarcity of cars available to bring in rural supplies. Efforts to load government wheat for distribution to mills was said to be at the expense of the corn movement. Upturns in the value of hogs tended further to give strength to corn. Opening prices, which ranged from the same as yesterday's, finish to be higher, with May 1.36 to 1.36½ and July 1.33½ to 1.34, were followed by material gains all around.

Oats hardened with corn. After opening ½¢ up, including May at 84½, the market sagged a trifle, but then ascended higher than before.

Provisions were firmer owing to a jump in hog quotations. Besides liberal shipments from here were reported.

On the advance, selling broadened out, and something of a reaction ensued. The close was unsettled, ¼ to 1½¢ net higher, with May 1.36½ to 1.36½ and May 1.34½ to 1.34½.

For either the amateur home "snappers" or when you take baby to a "real" photographer to have her picture taken, do not "dress her up" in her best clothes, or let her know that she is to pose for her portrait. Let her wear one of her "second best" white dresses, or even a play costume, and she will be more herself than if "all decked up" in her best finery, which is almost certain to give her a self-conscious look.—Exchange.
